Hi! I am Marco Chan from Year 1 Culinary Arts Management. I joined Summer Camp 2015 which had a great meaning to me. It is a good chance to know more about IFT and Macao. Now I have come from Hong Kong to study 4 years here. Besides making a lot of new friends here, the study life helps me build up interpersonal relationship which is very useful for my future career. Come and join us now! I wish to see you this summer.

I joined Summer Camp because I know IFT is a tourism school and I want to work in this industry. When I knew IFT had the Summer Camp, I was so excited and I finally joined it. During the one-week Camp, I not only attended the workshops, but also traveled some scenic points in Macao. The workshops were useful as they helped me decide which subject area I like. So, if you are interested in this industry or want to study in IFT, you should join this Summer Camp. Hope I can see you in the future!
